LONG DESCRIPTION/ PRODUCT INFO: (500 – 800 characters) 3<sup>rd</sup> party please

The **Enhancement and Repair of Audio (ERA) Bundle** is a collection of six single-knob audio repair plugins that offer both fast and high-quality processing. These plugins are not only incredibly effective but also ridiculously easy to use. Whether one is a seasoned pro or just starting out, the ERA Bundle can help them hassle-free, quality results.

The **ERA 4 Bundle Standard** includes the following plugins;

- **ERA 4 Noise Remover** (Easily reduce or completely remove unwanted fans, air-conditioners, electric hum & hiss or any other background noise)
- **ERA 4 Reverb Remover** (Quickly reduce excessive reverb and bring your sound into focus)
- **ERA 4 De-Esser** (Smooth out audio problems caused by excessive sibilance consonants (such as "s", "z", "ch", "j" and "sh"))
- **ERA 4 Plosive Remover** (Instantly fix unnatural plosive thumps: such as "p", "t" and "b").
- **ERA 4 Voice Leveler** (Even out distracting volume differences in your voice recordings instantly)
- **ERA 4 De-Clipper** (Repair your clipped audio in seconds)
